TIDECHALLENGE · 2026 OFF-SEASON

FIELD DRAWINGS

Every FIELD figure from the FROZEN BLITZ Game Manual, collected in one place with its dimensions. Companion to Game Manual v1.4. If anything here disagrees with the official CAD model, the CAD model governs.

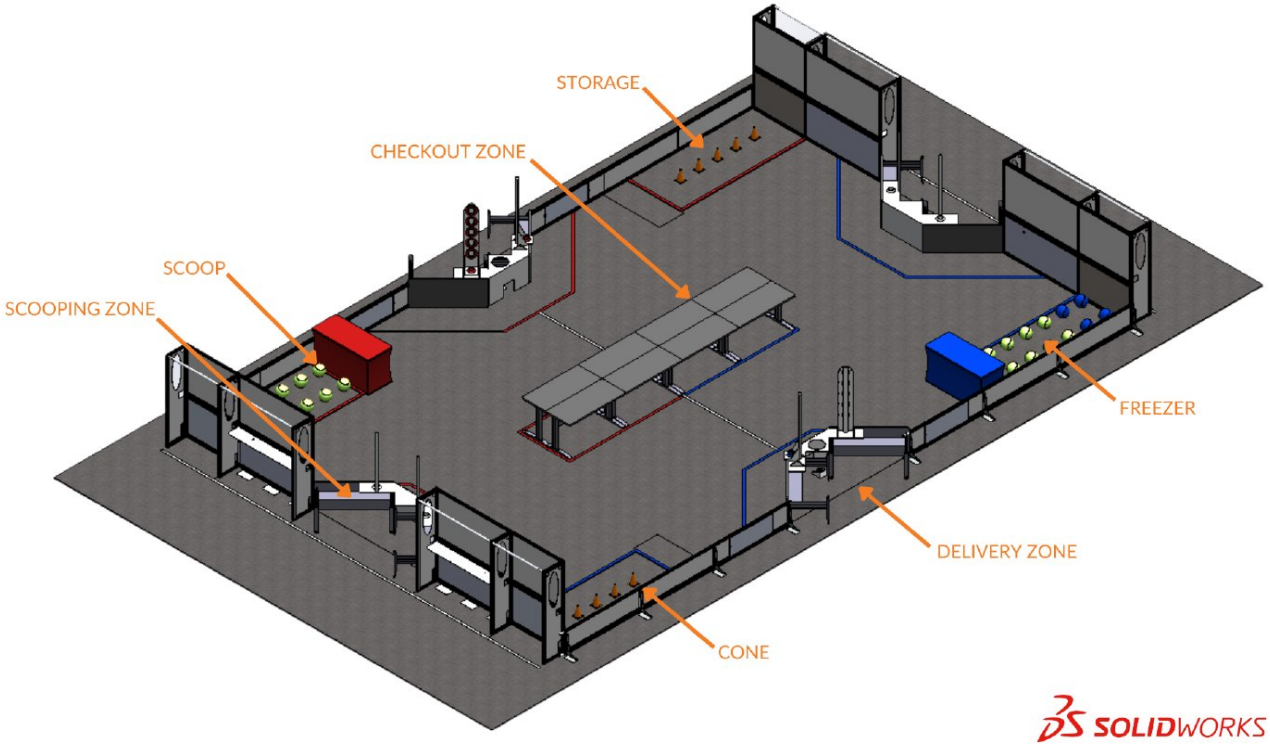

GENERAL NOTES

1. All dimensions are in inches, with approximate metric values. Dimensions are nominal; no tolerances are implied.
2. Exact dimensions, tolerances, and construction details are in the official CAD model and drawings (WhatsApp community).
3. Lines and zones are marked with 2.0 in (~5.1 cm) wide gaffers tape, as on official FIRST FIELDS. Brand and color may vary.
4. Zones are infinitely tall volumes bounded by and including their tape.
5. Renders are for general visual understanding; colors and textures are illustrative.
6. Assembly varies slightly between venues. Ask about tolerances in the Q&A system.

DELIVERY ZONE STRUCTURE DIMENSIONS

Item	Dimension
DELIVERY TRAYS	2 per structure, 1 ICE CREAM each
CHUTE	between the 2 trays
PURPLE PLANE	HUMAN PLAYER reach limit

Item	Dimension
Side wall	4 ft 7 in (~140 cm)
Front face	3 ft 4 in (~100 cm)
Structure	see official CAD

Dimensions shown on the elevation
4 ft 4 in (~132 cm)
2 ft 5¾ in (~75 cm)
2 ft 4½ in (~72 cm)
5 in (~13 cm)
3½ in (~9 cm)

DELIVERY CYCLE

- A lever locks each tray in the raised position.
- Pull the lever to release the tray and pivot it back toward the HUMAN PLAYER.
- ICE CREAM must be stable 3 s on a raised tray before the tray is lowered.
- SCOOPS go into the CHUTE, between the trays, and roll into the DELIVERY ZONE.
- CONES are thrown back to their STORAGE; HOOPS stay out of play.
- Raise the tray until the lever locks it again.
