FROZEN BLITZ · TIDECHALLENGE 2026

Team Update 02

Thursday, November 5, 2026

GENERAL

This update clarifies how AUTO CONE and SCOOP points are assessed, following a question in the Q&A. CONES placed and SCOOPS stacked during AUTO count at the end of AUTO wherever their stack or ICE CREAM is on the FIELD. They don't need to stay at the SCOOPING STATION.

> Additions are highlighted in yellow. Deletions are indicated with a ~~strikethrough~~. Notes that explain the change but are not part of the manual are in **bold**.

The following documents were updated with this Team Update:

Game Manual v1.6
PDF and web version

Web manual
section 5.5 and the score calculator

SECTION 5 · GAME DETAILS

5.5 Scoring

Scores are assessed at different moments of the MATCH:

- **AUTO CONE and SCOOP** points are assessed when the ARENA timer displays 0:00 following AUTO~~. Only what is still placed or stacked at that moment counts.~~, for the CONES placed and SCOOPS stacked during AUTO (see 5.5.1).

5.5.1 SCORING ELEMENT Scoring Criteria

- A CONE placed or a SCOOP stacked during AUTO earns AUTO points if, when AUTO ends, the CONE is still placed or the CONE or SCOOP is still part of its stack or ICE CREAM. This applies wherever that stack or ICE CREAM is on the FIELD (e.g. at the SCOOPING STATION or in the DELIVERY ZONE), and whether or not a ROBOT CONTROLS it.
- An ICE CREAM is **delivered** once it is fully supported by a raised DELIVERY TRAY in its ALLIANCE'S DELIVERY ZONE, is no longer CONTROLLED by a ROBOT, and remains stable for 3 seconds during TELEOP before the HUMAN PLAYER lowers the tray. If the tray is lowered sooner, the ICE CREAM is not delivered.

5.5.3 Point Values

Table 5-3 *FROZEN BLITZ point values (AUTO rows)*

Action	Criteria	AUTO
CONE	each CONE placed ~~in the SCOOPING ZONE at the end of AUTO~~during AUTO (see 5.5.1)	2
SCOOP	each SCOOP stacked ~~on top of a CONE or another SCOOP at the end of AUTO~~during AUTO (see 5.5.1)	4
